

Mostafa Hussein Mohamed

Full Stack PHP Laravel Developer

✉mostafaaa.husseinn@gmail.com | ☎01128458999 | [Portfolio](#) | [LinkedIn](#) | [GitHub](#)

PROFILE

Full Stack Developer with 1.5+ years of professional experience building scalable web applications using Laravel (PHP) and Vue.js. Proven track record delivering ERP dashboards and educational platforms serving 3,000+ daily active users. Specialized in RESTful API design, complex database architecture, authentication systems, and role-based access control (RBAC). Self-taught engineer combining formal academic discipline with continuous hands-on development.

PROFESSIONAL EXPERIENCE

Full Stack Developer — Meshkatnour May 2024 – Nov 2025 · 1 yr 7 mos

Cairo, Egypt · Full-time | Laravel · Vue.js · MySQL · Redis · REST APIs

- Built and maintained full-stack web applications (ERP dashboards & educational platforms) serving 3,000+ daily active users.
- Designed and implemented RESTful APIs consumed by both web and mobile clients, reducing average response time by ~35% through query optimization and caching.
- Architected role-based access control (RBAC) systems and multi-guard authentication for complex multi-tenant applications.
- Led database schema design focused on scalability and performance — optimized slow queries cutting load times by up to 40%.
- Integrated third-party services: Stripe (payments), WhatsApp Business API, and Firebase Cloud Messaging (FCM) for push notifications.
- Collaborated in Agile sprints using Git workflows; contributed to full project lifecycle from requirements gathering to production deployment.

Full Stack Developer — Elwessam Educational Platform Freelance · 2024

Client: Nader Abdelfattah (German Language Instructor) | Laravel · MySQL · Vue.js

- Developed a full-featured LMS to manage online courses, student enrollment, content delivery, and payment processing.
- Implemented secure authentication, content access control, and an admin dashboard for course and student management.

PROJECTS

School Management System Laravel · Livewire · MySQL · Multi-Auth · Service-Repository Pattern

Comprehensive school ERP with multi-auth (Admin, Teacher, Student, Parent). Manages grades, sections, subjects, invoices, and attendance. Teachers upload exams/materials; parents track academic performance in real time.

[GitHub](#) · [Live Demo](#)

Point of Sale (POS) System Laravel 10 · MySQL · Authentication · Inventory Management

Robust POS system enabling shop owners to manage product pricing, sales operations, transaction tracking, and inventory. Built for scalability with clean authentication and a role-based dashboard.

[GitHub](#) · [Live Demo](#)

Restaurant API — Laravel & Stripe Laravel 11 · JWT · Stripe · RBAC · Service-Repository Pattern

RESTful API for order management and table reservations with Stripe payment integration. Secured with JWT authentication and granular RBAC permissions. Architecture follows Service-Repository pattern for maintainability.

[GitHub](#)

Invoices Management App Laravel · PHP · MySQL

Web application for companies to manage invoices end-to-end: creation, tracking, payment processing, and archiving. Features a clean dashboard with real-time payment status and exportable reports.

TECHNICAL SKILLS

Backend	PHP, Laravel, Laravel Livewire, RESTful APIs, Service-Repository Pattern
Frontend	Vue.js, JavaScript, Tailwind CSS, Bootstrap, HTML5, CSS3
Database	MySQL — schema design, query optimization, indexing
Auth & Sec	JWT, Laravel Sanctum, RBAC, multi-guard authentication
Integrations	Stripe, WhatsApp Business API, Firebase Cloud Messaging (FCM)
Principles	OOP, SOLID, Design Patterns, Clean Architecture
Tooling	Git, GitHub, Postman, Linux CLI, Agile / Scrum

EDUCATION

Bachelor of Social Work — [Helwan University](#) 2022 – 2026

While pursuing a formal degree, independently built expertise in full-stack web development through self-directed learning, building production-level projects and working in a professional engineering environment from 2024.
